Granting Permission to Use the Trellix ePO Extension

An ePO user without Admin privileges can be granted permissions to use the Asset Manager extension as follows:

 On the Trellix ePO server, click the Menu icon > Permission Sets. Notice the new permission set created for this installed extension called "LumetaRemoteCommandPush."

ePolicy Orchestrator	Permission Sets
	Filter list
Recent Pages	Executive Reviewer
dueries & Reports	Global Reviewer
🙀 System Tree	Group Admin
Dashboards	Group Reviewer
	LessPerms
Users	LumetaRemoteCommandPush
Permission Sets	MOVE SVA Manager

2. Click LumetaRemoteCommandPush and on the right side options, click Edit for System Tree Access.

e access:	No permissions	
	No permissions	Edit
	No permissions	

3. Select My Organization and click Save.

System Tre

	Edit Permission Set LumetaRemoteCommandPush: System Tree access			
	▶ ✓ My Organization			
4	Select Assot Manager Demote Command and slick Edit			
4.	Select Asset Manager Remote Command and click Edit.			
	Lumeta ESI Remote Command:			
5.	Select "Activate permission to run remote command for Lumeta ESI extension " and click Save.			
	Edit Permission Set LumetaRemoteCommandPush: Lumeta ESI Remote Command			
	Lumeta ESI Remote Command No permissions			
	• Activate permission to run remote command for Lumeta ESI extension			
6	Click the Menu icon > Uppro			
0. 7	Onlost the work that will be using the Accest Manager extension and elick Actions - Edit			
1.	Select the user that will be using the Asset Manager extension and click Actions > Edit.			

8. Select the LumetaRemoteCommandPush permission set and save the user.

Manually assigned permission sets:	Administrator
	 Selected permission sets:
	Executive Reviewer
	Global Reviewer
	Group Admin
	Group Reviewer
	LessPerms
	🗹 LumetaRemoteCommandPush
	MOVE SVA Manager

Now you this particular user can configure the Asset Manager extension in Trellix without admin permissions, and can get and post data to, from, and into ePO.
