

# RedSeal Management Dashboard

RedSeal is not defending the IPs listed in the Unmanaged by RedSeal widget. Export these from Asset Manager; import them to RedSeal to provide complete coverage.

Candidate IPs for upload to RedSeal

<input type="checkbox"/> 2600:802:460:632:d03c:f4c5:a72c:7152		true			Lumeta-333	02/12/2020 06:52:58 PM	05/18/2020 08:00:31 PM	

Asset Manager cannot "see" the IPs listed on the Unmanaged by Asset Manager widget. This indicates that your Scouts cannot "see" into the network on which they are located. Check your Scout deployment.

## IPs Unmanaged by Lumeta

IP Address	DNS Name
172.16.21.1	
65.246.244.67	
65.246.244.66	
65.246.242.129	
65.246.240.65	
50.226.27.154	
10.30.1.129	

These IPs are getting the benefits of being managed by both Asset Manager and RedSeal.

RedSeal and Lumeta Managed IPs						
IP Address	active	First Observed	Last Observed	zonename	dns	
65.246.244.100	false	02/21/2018 05:10:19 AM	02/21/2018 01:15:28 PM	Zone1		
65.246.244.97	true	02/14/2018 12:17:53 PM	02/22/2018 09:49:06 PM	Zone1		
65.198.68.10	false	02/21/2018 08:46:26 PM	02/21/2018 08:46:26 PM	Zone1
